

Decodable Readers

Decodable Readers are books with simplified spelling patterns (phonetic code), which are designed for beginning readers.

“Decodable text is a type of text often used in beginning reading instruction. With this type of text, new readers can decipher words using the phonics skills they have been taught.” - (Wikki, Decodable Text, 2018 <https://en.wikipedia.org/wiki/Decodable_text>)

Every school should use Decodable Readers (Books) in the early years of reading instruction and should also stock some in their library for students to borrow.
